Project code	LE011
Project report period	2019-11-09 to 2020-11-08
Applicable protocol	Protocole 2 - Landfill sites – CH ₄ treatment or destruction

TOPIC
Issuance of offset credits following the analysis of the project report and verification report submitted by the promoter

ISSUANCE OF OFFSET CREDITS
Number of offset credits requested by the promoter: 5 761
Number of offset credits issued: 5802, including 1 655 of vintage 2019 and 4 147 of vintage 2020
Number of offset credits placed in the promoter's account: 5 627
Number of offset credits placed in the Minister's environmental integrity account: 175
Date of issuance: 2021-02-24
Explanations:
The difference between the number of offset credits requested and the number issued is due to the use of a destruction temperature higher than that required in RSPEDE Protocol 2 for the quantification of reductions eligible for the issuance of offset credits. The quantity of offset credits corresponding to this difference has been added to the quantity requested.
As determined by section 70.20 of the « Regulation respecting a cap-and-trade system for greenhouse gas emission allowances », 3% of the offset credits issued have been placed in the Minister's environmental integrity account.
